1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard Henderson on 10/26/06.

The application has been amended as follows:

1) Claim 72 has been canceled.

2) In claim 80, lines 1-2, "according to claim 72" is deleted and following is inserted therefor:

- comprising applying one or more biphenylbenzamide derivatives of formula (Ia) according to Claim 60 to the microorganisms and/or their habitat, - -

3) In claim 81, line 2, "72" is changed to - - 80 - -.

2. The following is an examiner's statement of reasons for allowance: Closest prior arts are Eicken et al and JP 2001-302605. Eicken et al teach structurally similar compounds as claimed herein, see claim 2. The compound differs from the instant claims in that the instant compounds phenyl group of the biphenyl group is always at least disubstituted as against single substituent in the reference. JP 2001-302605, though show disubstituted phenyl, their carbonyl connected group is not phenyl.

Art Unit: 1621

Additionally, applicants have submitted a Declaration showing unexpected results because of two substitutions as against one of the reference..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
